

Sprint 2 Report

Product Name: BB

Team Name: Team Rocket

Sprint Completion Date: November 4th, 2018

Revision Number: N/A

Revision Date: N/A

Actions to stop doing:

1. Team should stop putting work off until the last minute, because it leaves tasks unfinished to the point where they may not be completed by the end of the sprint.
2. Team should ensure all code is functional before pushing into shared remote branches.

Actions to start doing:

1. Team should start keeping a more robust backlog so that if a barrier arises that cannot be overcome in the sprint, the team can still be productive.
2. Team should start reevaluating the sprint plan so that the tasks to do remain clear throughout the sprint.
3. Team should start going through the backlog as deployment nears so that the team has a working application at end.

Actions to keep doing:

1. Team should continue communication, as it has been very helpful for the entire team to know what is going on during all the separate parts of the process.
2. Team should continue short SCRUM meetings 4 times a week because they are very helpful in making sure that everyone is on top of their specific parts, and everyone knows what everyone else is doing.
3. Team should continue weekly longer meetings to work together face to face on development.
4. Team should continue weekly meetings with the commissioner of the project to keep in touch with her vision of the product.
5. Team should continue working in person as it increases individual productivity

Work completed/not completed:

1. One sub-team familiarized themselves with the scheduling platform 10to8 but ran into issues with an activation key needed to access the database.
2. One sub-team worked on the layout of the list view for the presentations and styled it.

Work completion rate:

Number of user stories completed: 2 / 3

Number of estimated ideal work hours: 15

Number of days: 5

User stories/day: 0.5

Ideal work hours/day: 3
