Boundless Brilliance User Manual

Thank you for downloading the Boundless Brilliance Internal App! We hope that it will enable you to manage your presentations with the organization easier and on-the-go. This app is designed to streamline your access to the scheduling platform of Boundless Brilliance, but if you need help navigating the interface this document is here to help with that.

Installation Instructions

1. Clone the repo: https://github.com/wisolee/Boundless_Brilliance.git
2. From the master branch, run the application on XCode.
3. You can choose to run the application through one of the emulators in XCode or on a connected device.
4. Enjoy!

Creating an account

1. Navigate to the register page by clicking the "New to the app? Register here" button
2. Fill in the following fields:
    a. Name
    b. Email
    c. Password (Must be at least 7 characters to be strong)
    d. Chapter (Select from spinner)
    e. Member Type (Select from spinner)
3. Click the "register" button to create an account, which will also automatically navigate you back to the login screen.

Logging in

After you create an account, the information you entered is stored in our database. You can now log in with the email and password you submitted through the registration screen.

1. Enter your email and password
2. Press the login button

The List

The main feature of the app is listing the presentations organized by Boundless Brilliance. The screen after the login screen is this. You'll be presented with a list of all of the presentations, past, present, and future, scheduled by your chapter of Boundless Brilliance. On this page, you can also logout of the app by clicking the "Logout" button.

1. Presenter/Outreach Coordinator
    a. Filtering presentations:
        i. Can view your chapter's presentations by selecting the tab from the scope bar with the name of your chapter on it.
        ii. Can view your personal presentations by selecting the tab from the scope bar with your name on it.

b. Searching for presentations:
   i. Can write a search query in the search bar. (search by presenter names, presentation location, presentation date)
2. Management
   a. Filtering presentations:
      i. Can view all chapter presentations by selecting the tab from the scope bar labelled "All".
      ii. Can view specific chapter presentations by selecting the tab from the scope bar labelled with the specific chapter name.
   b. Searching for presentations:
      i. Can write a search query in the search bar. (search by presenter names, presentation location, presentation date)

The Detail View

You can enter a screen with more information about the presentation in question. Hopefully this helps keep you informed while you're on the way to your presentation. You can also access a survey that the Boundless Brilliance team can review from this screen.

1. Click on a presentation

Some important things to note:

1. Currently the app does not restrict access to the survey to the presenters. *Be careful not to submit a survey for a presentation you did not participate in.* You will not be able to rescind a survey once it's submitted
2. Access to the survey is restricted until after the presentation has passed.

The Survey

Here is where a presenter fills out information about the presentation after it is over. Some of this information is:

- How many students are there?
- What experiment was performed?
- Transportation information: Who was your driver? Etc.

You are also given the option of adding additional information in a textfield. Once information is filled out, you can submit the presentation, and the information goes straight to our database!
